BEFORE ORDERING

Confirm both feet, preferred socks, width and calf / shaft fit. The source chart repeats UK/AUS size 7 for US 7.5 and 8; confirm the mapping rather than assuming a universal conversion.

Original chart supplied by My Leather Gear. Custom sizing is listed as a separate order option.

ORDERING & CUSTOM OPTIONS

BUILD THE RIGHT ENQUIRY.

Use the catalogue reference and the checklist below when requesting a quotation. FBG Sports pricing, delivery and order terms should be confirmed separately.

01 Select your model

Quote the FBG-LB reference, model name and quantity. All source listings show black as the standard colour.

02 Specify the fit

Choose a listed US size or Custom, then D / Medium or EE / X-Wide. For a custom fit, include foot length, width and any requested calf / shaft measurements.

03 Describe custom changes

The source offers requests for leather colour, lining, unlisted sizes and extended shaft heights. Feasibility, surcharges and specifications require confirmation.

04 Confirm timing and finish

Source processing guidance is 7–9 business days for standard articles and up to two weeks for custom orders. This is not an FBG delivery commitment; transit time is additional.

GENERAL LEATHER CARE

Brush off dust; wipe with a soft cloth. Test care products on a hidden area. Dry away from direct heat and choose polish or conditioner suitable for the leather finish.
